Classical Organs D Class Amplifier - V4.350

FOUR CHANNELS CLASS D AMPLIFIER

The **viscount** four Channels Class D V4.350 Power Amplifier is a 4 channel, rugged 2 rack-unit amplifier, fan-cooled.

It provides a lot of power and a high value performance in a lightweight Chassis.

The V4.350 is designed for professional heavy-duty applications and can drive 4 Ohm loads for long periods without overheating.

The high quality components and the carefully designed circuits ensure excellent audio performance and an extremely linear frequency response, giving crystal-clear sound in the high range and an up-front, full-bodied bottom end.

This amplifier guarantees total reliability and a trouble-free use even in the most demanding conditions.

viscount V4.350 Class D Four Channel Amplifier

Power Specifications	
Continuous Power	4 x 200 Watts at 8 ohms
	4 x 330 Watts at 4 ohms
	2 x 660 Watts at 8 ohm (Bridged mono mode)
Electrical Specification	
Input Sensitivity	1V
Input Impedance	10K Unbalanced
Frequency Response	20Hz – 20KHz (+0dB / -3dB)
Voltage Gain	30dB
Distortion	(SMPTE: 1M) <0.1%
S/N Ratio	103dB
General Specifications	
Front Controls	AC power switch, 2 channel level control; $-\infty$ to +30 dB
Rear Controls	30 Hz high-pass filter on/off, bridge/stereo/parallel mode
Signal Indicators	Signal present (green LED), Clip (red LED), protection (red LED)
Power Indicators	1 blue LED integrated with power switch
Protection	On/Off, mute, DC-fault, load
Input Connectors	Balanced XLR-F / 1/4" Combo
Power Supply	110-120V or 220-240V (50Hz/60Hz)
Dimensions	
Width / Large / High	19" x 14.8" x 3.5" (483 x 376 x 88.8mm)
Weight	
Kilograms	7.9
Pound	17.6
